

## Electronic Prescribing

- Open the portal from icons throughout Titanium
- Conveniently manage new Rx and electronic renewal requests from a dashboard screen.

Rx Status	
New Rx(s)	2
Renewal Rx(s)	0
Print Pending Rx(s)	0

- View history of issued and reported prescriptions, and patient allergies
- Import history of other Rx issued on the SureScripts network
- DUR warnings for patient history, and insurance formularies.

- Allow other Titanium users to prepare/hold Rx for issue by prescribers.
- Build favorites lists of prescriptions, SIGs and pharmacies
- Issue Rx via multiple methods

**View DUR Warnings**

<b>Rx History</b>	<b>Reported Rx</b>
